

Petition for Exceptional Case

In the event that an applicant is not able to obtain an official high school transcript due to natural disaster, the Vice President for Academic Affairs will review an admission petition to determine admission eligibility. In these cases, the student may be admitted conditionally as a Non-Degree Seeking Student and must successfully complete twelve (12) semester hours approved by the Academic Advisor before being officially admitted into a degree program. Please submit supporting documentation such as newspaper articles, letter from an administrator, etc. to Registrar@columbiasouthern.edu.

I have read, understand, and agree to the above requirements for the Exceptional Case Petition. I further understand that approval is not automatic.
